

All India Institute of Medical Sciences Raipur invites you for The National CME & Workshop On

Clinico- Mycological Update: Uncovering the Unknown

Date: 30th -31st January 2024

Organised by

Department of Microbiology

AIIMS Raipur

Under the aegis of **Chhattisgarh Association of Medical Microbiologists**

Venue

Message

Chhattisgarh is a state in central India with a rich biodiversity. However, it is also a home to a number of fungi, which can cause infections ranging from mild to severe. The 'Clinico-mycological Update' in Chhattisgarh is a first-of-its-kind event that will bring together the experts in the field of medical mycology to discuss the latest trends and developments in the diagnosis and treatment of fungal infections. We are fortunate to have renown national and international faculties who have established the significance of mycoses and provided us with a wealth of research ideas.

COVID-19 pandemic has highlighted the importance of fungal infections, both as a complication of COVID-19 and as a distinct health threat. Fungal infections are often overlooked, but they can be serious and even deadly. The 'Clinico-mycological Update' is particularly important for Chhattisgarh because the state is an unexplored region in terms of mycoses. This means that there is a lot that we still don't know about the incidence, prevalence, and clinical presentation of fungal infections and its prognosis. We assure all the participants that the event will provide valuable updates on both the clinical and laboratory aspects of fungal infections. The event will be held at AIIMS Raipur, Chhattisgarh, on 30-31 January 2024.

Who should attend?

Expected participants for CME - Faculties, Residents & PG Students from specialities comprising of Microbiology, Pathology, General Medicine, Paediatrics, Pulmonary Medicine, Oncology, Dermatology, Ophthalmology & ENT department. **Expected participants for Workshop** - Faculties, Residents, PG Students & PhD

Expected participants for Workshop - Faculties, Residents, PG Students & PhD Students from Microbiology .

Organising Team
